30-Minute Class Presentation

- Show 3-minute video on Youtube, OrgSync or USB drive
- Prezi presentation (October 31)
- Classroom Activity: in groups of 4, each group will have a sheet of paper with some different projects and assignments. You'll match the tenet or tenets that you think apply to each of these scenarios. I have some stickers up here that you can come grab to put next to the scenario. Give 5-10 minutes. Then, ask them to share what they decided for each scenario.
